

116TH CONGRESS
1ST SESSION

S. 1832

To protect and educate children about the dangers of e-cigarettes and other electronic nicotine delivery systems, and for other purposes.

IN THE SENATE OF THE UNITED STATES

JUNE 13, 2019

Mr. UDALL (for himself and Mr. ROMNEY) introduced the following bill; which was read twice and referred to the Committee on Health, Education, Labor, and Pensions

A BILL

To protect and educate children about the dangers of e-cigarettes and other electronic nicotine delivery systems, and for other purposes.

1 *Be it enacted by the Senate and House of Representa-
2 tives of the United States of America in Congress assembled,*

3 SECTION 1. SHORT TITLE.

4 This Act may be cited as the “Smoke-Free Schools
5 Act of 2019”.

6 SEC. 2. FINDINGS.

7 Congress finds the following:

8 (1) The use of tobacco among young students
9 remains a serious health concern, with more than 1

1 in every 4 high school students, and approximately
2 1 in every 14 middle school students, reporting re-
3 cently using a tobacco product.

4 (2) Roughly 95 percent of smokers will start
5 smoking before they are 21 years of age, with more
6 than 90 percent of adult smokers reporting having
7 started when they were teens.

8 (3) E-cigarettes and other electronic nicotine
9 delivery systems (commonly referred to as “ENDS”)
10 entered the market in 2006 and, by 2014, became
11 the most commonly used and popular tobacco prod-
12 ucts among middle school and high school students.

13 (4) The use of electronic nicotine delivery sys-
14 tems, including e-cigarettes, continues to rise, with
15 the Centers for Disease Control and Prevention and
16 the Food and Drug Administration having recorded
17 a 78-percent increase in e-cigarette use among high
18 school students and a 48-percent increase in e-ciga-
19 rette use among middle school students from 2017
20 to 2018.

21 (5) The most recent data finds that 3,620,000
22 middle school and high school students were current
23 e-cigarette users in 2018, an increase of 1,500,000
24 students in just one year.

1 (6) Despite a 2018 National Academies of
2 Sciences, Engineering, and Medicine report that
3 found e-cigarette aerosol contained fewer toxicants
4 than combusted cigarette smoke, e-cigarettes present
5 unique health concerns for middle school and high
6 school students.

7 (7) Electronic nicotine delivery systems, includ-
8 ing e-cigarettes, can contain nicotine, a drug the
9 Surgeon General has determined is highly addictive
10 and can be harmful to the development of the ado-
11 lescent brain.

12 (8) Congress has a major policy-setting role in
13 ensuring that the use of tobacco products among mi-
14 nors is discouraged to the maximum extent possible.

15 (9) Additionally, local educational agencies
16 should be given greater flexibility to target specific
17 funding to efforts aimed at eradicating the problem
18 of the use of electronic nicotine delivery systems, in-
19 cluding e-cigarettes, as such use affects student
20 health, productivity, safety, and outcomes and im-
21 pedes a distraction-free learning environment.

22 **SEC. 3. PROHIBITION OF ELECTRONICALLY DELIVERED**
23 **NICOTINE SYSTEMS IN SCHOOLS.**
